

STATEMENT OF PURPOSE

RS29217 / H0507

To provide for lighted arrow nocks and mechanical broad heads in Idaho for archery hunting. Lighted nocks make it easier for a hunter to recover lost arrows which would be more environmentally safe and protect unsuspected game or people using the great outdoors. Mechanical broad heads create higher accuracy as well as a more humane kill and will decrease the waste of game from injuries and lost kills. Both will assist in recovery of wildlife and provide a greater level of safety.

FISCAL NOTE

There will be no fiscal impact implementing this legislation.
